FOR IMMEDIATE RELEASE  
9 A.M. EDT, October 25, 2006

## **LOCAL AT-RISK YOUTHS TO LEARN ABOUT THEIR WORLD CONNECTION**

MEDIA, PA: The Be Proud Foundation is a 501(c)(3) non-profit organization that provides various programs for Delaware County Youths. Be Proud is pleased to announce DNA Tribes, Arlington, VA and Genetic Testing Laboratory, Las Cruces, NM are generously co-sponsoring DNA testing and genetic ancestry for 10 at-risk youth in the Be Proud Foundation Day Treatment Program Media, PA. This project is a great way for youth to understand that there is more to who they are, than "the neighborhood". They're part of a great legacy and connected to the world in ways they never imagined.

Prior to the testing, the students have prepared brief statements about what they hope to learn. After the testing they will write about what they learned about themselves and the world.

For further information about DNA testing please visit [www.dnatribes.com](http://www.dnatribes.com).
